Skills

◎ Training Individuals
◎ Monitoring performances
◎ Troubleshooting
◎ Communication skills
◎ Inspecting equipment
◎ Customer service

Self-driven, motivated and a hard worker. Ability to prepare instructional material and deliver said material in an understandable manner. Proven skill in problem solving and professionalism. I was a heavy equipment and diesel mechanic for 10 years. It was a great career, but had begun to take a toll on my physical health. Learned a lot about hard work, time management and variable control techniques. I am now looking to forward my life in a new direction and am very excited about pushing myself in a new field. Thank you very much for your time.

Work History

U.S. Army 2015 - 2017
Senior mechanic

◎ Key/ Security handler, Tool inventory, Services and unscheduled maintenance

Halliburton 2017 - 2020
Mechanical Technician 1

◎ Services and unscheduled maintenance.
◎ Cross trained individuals on new pieces of equipment using lesson plans that were understandable. Resulted in an increase in production and diversity in employees.

R + L Carriers 2020 - 2024
Foreman, Mechanic

◎ Truck, trailer, forklift and electric pallet jack mechanic.
◎ Designated to repair numerous vehicles. Was able to resolve issues by identifying the problem, then applying proper troubleshooting procedures. Solved all issues and maintained 100% vehicle dependability.
◎ Created and maintained reports on all equipment and delivered the reports throughout the company ensuring fast, safe and smooth operations.
◎ Familiar with web based ticketing systems as that is what was used to report issues with equipment. Followed up on repairs and kept detailed logs of any issues and resolutions.
◎ Trained new personnel on equipment and the maintenance procedures for that equipment using prepared hands-on instruction. Resulted in an increase of the quality of work and the dependability of personnel. 100% pass rate on instructions
